This law was passed by the 2003 General Assembly. It goes into effect January 1, 2004.

Share your life

More than 2,000 Virginians are waiting for organ transplants and thousands more could benefit from tissue transplants. Hundreds of Virginians die needlessly each year due to a lack of donors. You can help save lives by deciding now to be an organ and tissue donor.

♥ Designate your decision

You may declare your intent to be an organ and tissue donor by:

- checking the appropriate box on the driver's license or ID card application or renewal
- online at www.dmvNOW.com

♥ Questions and answers

- *Will the decision to become a donor affect the quality of my medical care?* No. Organ and tissue donation happens only after every effort has been made to save your life and death has been legally declared.
- *Will donation disfigure the body? Can there be an open casket funeral?* Donation does not interfere with funeral arrangements. In most cases, there is no impact on your ability to view the deceased.
- *Are there any age considerations for donation?* No. People of all ages and medical histories should consider themselves potential donors.
- *Are there any costs?* No. There is no cost to the donor's family or estate.

♥ For more information about organ, tissue, eye or bone marrow donation:
